FRALOCK®

Leading the Way in Advanced Materials Solutions

INTERFACE COMPONENTS

- **Thermal Blockers, Heat Spreaders, EMI Shielding, Specialty Laminates**

FLEX & RIGID-FLEX CIRCUITS

- **Adhesiveless Polyimide Heaters and Flex Circuits**

CERAMIC SOLUTIONS

- **Rapid-Fire Precision Heaters, Engineered Structural Ceramics**

TAPES AND FILMS

ISO REGISTERED

Services Offered

CAD Automated Cutting Services
Custom Adhesive Formulation
Engineered Ceramics - Active & Passive
Conformal Coating
Electronics Assembly
Die Cutting – Rotary/Flatbed/Steel Rule
Laser Cutting & Ablation
Additive Aerosol Jet Printing
Multi-Layer Laminates
Plastic Injection Molding
High-Speed CNC Milling & Routing
Zone Coating (PSA)
Prototyping
Clean Room Processing

Innovative Materials • Manufacturing • Automation

Fralock is a full-service solutions provider offering Die-Cutting, Laser Cutting, Laminating, CNC Machining, and CAD Cutting Services. We are an ISO 9001 and an AS9100 certified company serving the Areospace, Semiconductor, Electronics, Medical, and Industrial markets. We specialize in Innovative and High Performance Materials, Pressure Sensitive Tapes, Adhesives, Engineered Ceramics, EMI/RFI Shielding, Thermally Conductive Materials, Foams, Rubber, Kapton, Nomex, Mylar, Foils and Custom Composites. Fralock manufacturers Cirlex (sole licensee) and multi-layer Polyimide Adhesiveless Laminants. Fralock is dedicated to providing exceptional customer service from design development through product realization.

Applications

- Adhesives & Bonding Systems
- Electrical Insulation
- EMI/RFI Shielding
- Gasketing & Sealing
- Harsh Environment
- Shock & Vibration
- Adhesiveless Polyimide Laminates
- Surface Protection
- Thermal Management
